A recent visit to one of the largest paint factories in the world, discloses machinery that was producing 10,000 gallons of paint, and doing it better and in less time than 100 gallons could be made by hand mixing.

This was the celebrated L. & M. Paint. The L. & M. Zinc hardens L. & M. White Lead and makes L. & M. Paint wear like iron for 10 to 15 years.

4 gallons L. & M. mixed with 8 gallons Linseed Oil makes 7 gallons of paint at a cost of less than \$1.30 per gallon.

If any defect exists in L. & M. Paint, will repaid house for nothing.

## Cured of Bright's Disease

Mr. Robert O. Burke, Elmore, N. Y., writes: "Before I started to use Foley's Kidney Cure I had to get up at night twelve to twenty times a night, and I was all bloated up with dropsy and my sight was so impaired I could scarcely see one of my family across the room. I had given up hope of living when a friend recommended Foley's Kidney Cure. One bottle worked wonders and before I had taken the third bottle the dropsy had gone, as well as all other symptoms of Bright's disease." B. H. Gorrell, druggist.

Alexander Benton, who lives on Rural Route 1, Fort Belvoir, N. Y., says: "Dr. King's New Discovery is my best earthly friend. It cured me of asthma six years ago. The first bottle ended the terrible cough, and this accomplished, the other symptoms left one by one, until she was perfectly well. Dr. King's New Discovery's power over coughs and colds is simply marvelous. No other remedy has ever equaled it. Fully guaranteed by B. H. Gorrell, druggist, 50c and \$1.00. Trial bottle free.

**Hallowe'en Party at Castle Hill**

A most entertaining Hallowe'en party was held last Thursday evening in the spacious dining hall at "Castle Hill," which was tastefully decorated with pumpkin skulls over the electric globes, while the windows and corners of the room were trimmed in corn and autumn leaves. In the lawn approaching the hotel mysterious figures had been stationed, with grotesque and canny costumes, giving to the scene an unnatural appearance.

The jolly participants were conveyed to Castle Hill in a trolley. Dancing was indulged in till a late hour. The participants were masked and enveloped in sheets. Other attractive amusements were potato races and biting apples from a tub of water. The refreshments served consisted of ginger snaps and cider.

"Daniel Boone on the Trail" is the title of one of the best historical melodramas on the road, and it will be presented at the Henry-Street Opera House in this city, next Thursday, the 7th, by a company of 20 first class artists. The company carries a den of wolves and bears, and also have real Indians in the play. First class specialists are given throughout the play. One of the most exciting climaxes ever witnessed on the stage is presented by this company when Daniel Boone's daughter is thrown into the cage of these ferocious, man-eating wolves by the Indians, and Col. ## V. M. I. Football in Rain

The Virginia Military Institute football team played Roanoke College last Saturday afternoon on the parade grounds and won by the score of 44 to 0. The first half was played in a heavy rain, and the last half on a wet and slippery field, which rendered brilliant features out of the question. The cadets used five substitutes until a few minutes of the closing of the second half, when the regular players took their places. The collegians were unable to gain against the cadets' defense, and resorted to punting almost every time they secured the ball. The halves were twenty and fifteen minutes.

## Hallowe'en Celebration

As usual in Lexington, Hallowe'en was celebrated last Thursday night, the principal participants being the freshmen at Washington and Lee University. About half past nine o'clock young men from the University appeared on the streets, wearing masks and dressed in fancy costumes. After parading the principal streets to the tune of hideous music, they proceeded to perpetrate what they conceived to be jokes on residents of the town, which consisted of removing a few gates, overturning street platforms, and setting in motion stray vehicles which they found in their wake. In several instances some destruction of property was reported.

At the University the rollicking youngsters were respectful of property, but had their "fun" at the expense of some of the classrooms. A few of the furnishings were removed, but not injured.

## Firemen's Services Recognized

Several of the losers in the recent fire in Lexington have given substantial evidence of their appreciation of the splendid services rendered by the Lexington firemen on that occasion. It is right that these young men should be remembered in this way. Fighting fire is no easy work, nor is it a safe occupation for those who do their duty. And substantial recognition of their services is appreciated by the fireman.

**Reorganization of Lexington Graded Schools**

At a meeting of the Lexington School Board November 1st, a resolution was adopted whereby the Lexington Graded Schools were reorganized to the extent of increasing the number of grades to eight instead of seven as heretofore.

The order is as follows:

It seems advisable to make a change in the naming of the Grades of the Lexington Public School, so that the patrons of the school may better understand the classification of the pupils. During the past ten or more years the first grade has been divided into what have been called the morning and afternoon sections. The work of these two sections is altogether different and each section really represents one year's work. It will be seen, therefore, that what has been called in the past Grade II was the third year's work, counting from the lowest section of Grade I, and Grade III, the fourth year's work and so on to the highest grade. In the future, the grades will be numbered from I to VIII and may be considered as divided into two groups, namely, First, Second, Third and Fourth Primary; and First, Second, Third and Fourth Grammar Grades.

The teachers are as follows:

I and II. Miss Preston—First and Second Primary.

III and IV. Miss Smith—Third and Fourth Primary.

V. Miss Varner—First Grammar Grade.

VI. Miss Howe—Second Grammar Grade.

VII. Miss Denlap—Third Grammar Grade.

VIII. Miss Moore—Fourth Grammar Grade.

## Big Dam at Natural Bridge

Messrs. C. W. Hancock & Son of Lynchburg, have been awarded the contract for the erection of a concrete and stone dam 85 feet high and 200 feet long on Cedar Creek, half a mile below the Natural Bridge proper. Sketches have been submitted to the board and approved, and the plans are now being drawn by Mr. C. W. Hancock, who will be the engineer in charge of the work. It is estimated that this will provide over a hundred horsepower, and this will be used for lighting the grounds under the bridge, the road from the station to the bridge, and to charge automobiles to carry visitors to and from the station and around the grounds. The lake made by the dam will be used for fishing and boating, and plans for a large bath house and swimming pool will be prepared some time in the near future.

The Natural Bridge Company, of which Mr. C. I. Johnson is president, and Mr. C. H. Paxton is manager, have now three fine hotels and several cottages on the property, all equipped with modern conveniences. The road to the station as well as the roads on the property have been macadamized, the company owning its own steam roller and rock crusher. A great deal of money has been spent in improvements, and the past season has been a most satisfactory one. The hotels are open all the year, and visitors come and go at all seasons.

**Rain Prevented Foot Ball**

The heavy rain of last Saturday prevented the game scheduled between Washington and Lee and Richmond College football teams. Wilson field was covered with several inches of water and mud. The two teams visited the game at the V. M. I. between the cadets and Roanoke College, with the expectation of playing on the parade grounds at the other game, should time permit. But the cadets' game was concluded so late that the other teams had to forego the game, much to the disappointment of the spectators.

Falling hair is caused by a germ, and this medicine completely destroys these germs. Then the healthy scalp gives rich, healthy hair.
